Background:

A lethal virus decimated the world's population over 3 years ago.

It's apparent that Monolith Corp was behind the spread of the disease, but because of the disorder left from the billions of lives lost, governments and law enforcement are focusing on keeping order and supporting infrastructure instead of tracking down those responsible.

The World Justice Organization has plans to use their limited resources to prove that Monolith was responsible and rally the international community to bring them down.

Monolith's motives are unclear, but the series of events behind their plan will slowly come together.

You are a PRO, a Primary Retrieval Operator, who will use your set of unique skills to infiltrate the areas of operation, locate the evidence and return it to be processed.

Standing between you and your objectives is the MSF, Monolith Security Forces, whose sole purpose is to protect the interests of Monolith.

It's time for the world to see what they did and how they did it.

Libera iustitia. Gear up, PRO, and move out.

Great soundtrack, but it's missing music from the starting area. It is pretty inexpensive and it comes with unused soundtracks to make up for it, so it's not that bad.. I like this game. Very nice, colourful and fun :). Thanks for those vinyls. It's a shame that there's only a few, you missed traditional clothing patterns, which are very unique. But hey, what am I expecting from a Czech company, you wouldn't stand if Slovak paint jobs were better, wouldn't you? (that was a bit rude, I hope you won't miss the point)

It looks rushed. Buy it only if you really want a Slovak flag on your Scania or Volvo.. Steam store says that this is a FULL CONTROLLER game, but unfortunately, the controler does not work in the game. I'd wait until they work out the bugs!. Nice art and game design, needs more ideas, but the problem is that the move sets become very repetitive; enemies repeat and have no sazz or color change, execept elite unites or the boss units. Grabbed it for a buck, not worth more than that.

A great DLC for a great game.

Bad reviews are purely from people who don't want to play the content to unlock the character, and they ignore the fact that you get 1 of the 2 immediately anyhow.

10V10 Great DLC and and a great addition to the game for a bargain price.. I'm a huge H. P. Lovecraft fan and love to get into anything related to his world. I'm sorry but this game is terrible. The graphics are sub-standard but I could get past that if the story were engaging. Admittedly, I'm only about an hour in, but the story is extremely vague, not in the good, Lovecraftian way. Madness!

The voice actors are fairly inept and are made worse by trying to create some sort of unique 20's French gangster accent and failing, mostly while reciting very awkward and confusing dialogue. The quotes from Lovecraft are left for you to read as they fly by. Madness!

The figure skins are nostalgic and harken back to Doom II days, although I don't think it's intentional. The map is filled with arbitrary boundaries that don't match the landscape at all and much of the non-snow constructions have no mass at all and can be walked through at will. That's the madness!

Much of the time, you are wandering aimlessly, wondering why you keep hoping to find some shred of interest in this awful mistake of a game. I think this is the true genius of it! The longer you wander...the more fragile and thin your desperate mind becomes...as the insipidness of the graphics and terrain and animation wear you down and down...you realize you've truly reached: THE MOUNTAINS OF MADNESS!

Oh, the sound effects and music are pretty good. Unless my twitchy brain was making them up.. Worms as a puzzle game? Surprisingly, it worked well here. This game's original concept and nice challenge make it really fun to play, especially with friend.. At first I had to get a refund, because the game was running really bad and I was very disappointed. They fixed the problems though and I bought the game again. It runs fine now and it's a lot of fun, just like all the other SK games. Worth a try.. I'm not sure what it is about this little indie puzzle game that I just love so much. Maybe because it has me thinking constantly on what to do at the situation before the time runs out?

It's a little hard to keep your eyes off the screen, even after you fail cause when you do, instantly it's all "YOU SUCK. YOUR TIME RAN OUT. HERE TRY AGAIN. LET'S GO LET'S GO."
