About This Game

Say howdy to **West of Loathing** -- a single-player slapstick comedy adventure role-playing game set in the wild west of the **Kingdom of Loathing** universe. Traverse snake-infested gulches, punch skeletons wearing cowboy hats, grapple with demon cows, and investigate a wide variety of disgusting spittoons.

Talk your way out of trouble as a silver-tongued Snake Oiler, plumb the refried mysteries of the cosmos as a wise and subtle Beanslinger, or let your fists do the talking as a fierce Cow Puncher. Explore a vast open world and encounter a colorful cast of characters, some of whom are good, many of whom are bad, and a few of whom are ugly.

Features:

- a sprawling open world, chock full of danger, quests, puzzles, and mysteries
- lush hand-drawn black and white graphics
- full stick-figure customization
- thousands of jokes, gags, and goofs
- crunchy turn-based combat (but only if you want it)

-
- liberal use of the Oxford comma
 - over 50 hats
 - disreputable saloons
 - several gulches
 - a drunk horse

NOTE: characters are not literally colorful (the game is in black and white)
